IDAHO UNIFORM CRIME REPORTING
January - September 1979

S 2275-1

The presence of crime in our State's communities is a serious concern not only of the law enforcement profession, but of society at large. The Uniform Crime Reports give a statewide view of crime based on police statistics contributed by law enforcement agencies throughout the state. The reader is cautioned against comparing statistical data of individual communities without first considering the crime factors which exist in each region and agency.
